Adobe PhotoDeluxe

About PhotoDeluxe

Adobe PhotoDeluxe makes it fun and easy for you to edit your favorite photos and place them in templates, photo albums, cards, calendars, fliers and more. The EasyPhoto® Organizer included in Adobe PhotoDeluxe lets you put your photos into galleries by subject, date, or any other category for easy storage and retrieval. Share your finished photo projects with family and friends via the Internet or e-mail.

PhotoDeluxe includes a new, easy-to-use interface that lets you apply dozens of special effects with a mouse click. "Step-by-step Guided Activities" help you produce professional quality photo projects right from the start.

System Requirements

Adobe PhotoDeluxe for Windows

- Intel 486 processor, Pentium or Pentium II processor
- Windows® 95 or Windows NT®
- 16MB or more of RAM available to PhotoDeluxe
- 70MB or more of available hard disk space
- Color monitor with support for 256 or more colors
- CD-ROM drive

Adobe PhotoDeluxe for Macintosh®

- 68040 or Power PC processor
- Apple System Software version 7.0 or higher
- 8MB or more of RAM available to PhotoDeluxe
- 45MB or more of available hard disk space
- Color monitor with support for 256 colors

DataViz Web Buddy

About Web Buddy

Web Buddy is a collection of powerful, time-saving Internet utilities that works with your Web browser. With Web Buddy, you can:

- Collect Web pages and entire Web sites from the Web for fast, convenient off-line browsing
- Schedule Web Buddy to automatically deliver Web pages and sites to your computer
- Convert and reuse Web pages and graphics in your word processor
- Organize all the information you find on the Web in one place
- All this and more while you're in your Web browser

System Requirements

Windows

- 486 or Pentium processor
- Windows 95
- 4MB RAM or greater recommended
- 5MB or more of available hard disk space
- PPP, SLIP or LAN Internet connection required

Supported file conversion formats (Windows)

Word for Windows 2.0, 6.0, 7.0; WordPerfect 5.1, 6.x; MS Works 3.0, 4.0; RTF; Text; GIF; JPEG; WPG; BMP; TIFF; PCX; WMF

Macintosh

- 68030 or faster processor (accelerated for Power Macintosh)
- Apple System Software version 7.1 or later
- 2MB RAM or greater recommended
- 5MB or more of available hard disk space
- PPP, SLIP or LAN Internet connection required

Supported file conversion formats (Macintosh)

MS Word 5.x, 6.0; WordPerfect 3.x; ClarisWorks 3.0, 4.0; MS Works 3.0, 4.0; RTF; Text; GIF; JPEG; TIFF; PICT

Installation Instructions for Windows 95

1. Insert the Zip*Plus* software CD into your computer's CD-ROM drive.
2. Select **English**. (Web Buddy is currently available only in English.)

   ■ ***If the ZipPlus software setup window does not open automatically,*** *follow these steps: (1) open My Computer; (2) double click the ZipPlus CD icon; (3) double click* ***Install.exe*** *in the root directory of the ZipPlus CD; (4) select English.* ■
3. Click the button for **Install Software now**.
4. If you have already installed Iomega Tools software, select **Zip*Plus* software only**.
5. Select **DataViz Web Buddy**. (You may install other Zip*Plus* multimedia software programs at the same time if desired.)
6. Follow the screen instructions to install the software.

Installation Instructions for Mac OS

1. Insert the Zip*Plus* software CD into the CD-ROM drive on your Mac.
2. Double click the Zip*Plus* CD icon on your Desktop.
3. Open the **Web Buddy** folder.
4. Double click the **Web Buddy Installer** icon.
5. Follow the screen instructions to install the software.

Iomega RecordIt

About Iomega RecordIt

RecordIt is like a digital cassette deck for your computer! The new multimedia package from Iomega records music, conversations, even lectures and meetings on your Zip™ or Jaz® disks.

- Record from a microphone right onto your hard drive or onto a Zip or Jaz disk
- Record audio files from a compact disc directly onto a Zip or Jaz disk, then take those recordings anywhere you take your drive
- Compile your favorite audio track from multiple input sources onto a single Zip or Jaz disk
- Play recorded files directly from your hard drive or Zip or Jaz disk

■ ***IMPORTANT!*** *RecordIt is intended for non-infringing use only. Digital recording of music must be done within the bounds of the personal use statute of international copyright law.* ■

System Requirements

Windows 95

- Pentium 100MHz or higher
- Windows 95
- 16MB RAM
- 5.5MB available disk space (30MB recommended)
- 8x CD-ROM
- Standard sound card and speakers (SoundBlaster card recommended)

Macintosh

- Power PC
- Apple System Software version 7.5 or later
- 16MB RAM
- 5MB available disk space (30MB recommended)

Installation Instructions for Windows 95

1. Insert the Zip*Plus* software CD into your computer's CD-ROM drive.
2. Select the language you want to use. (RecordIt is currently available in English, German, French, Spanish, Italian, Portuguese, Swedish, Czech, Russian, and Polish.)

   ■ ***If the ZipPlus software setup window does not open automatically,*** *follow these steps: (1) open My Computer; (2) double click the ZipPlus CD icon; (3) double click* ***Install.exe*** *in the root directory of the ZipPlus CD; (4) choose the language you want to use.* ■

3. Click the button for **Install Software now**.
4. If you have already installed Iomega Tools software, select **Zip*Plus* software only**.
5. Select **RecordIt**. (You may install other Zip*Plus* multimedia software programs at the same time if desired.)
6. Follow the screen instructions to install the software.

Installation Instructions for Mac OS

1. Insert the Zip*Plus* CD into the CD-ROM drive on your Mac.
2. Double click the Zip*Plus* CD icon on your Desktop.
3. Open the **RecordIt** folder.
4. Double click the **RecordIt Installer** icon.
5. Follow the screen instructions to install the software.

Support Information

The following is a brief list for Iomega's self-help support numbers. Refer to **How to Get Help** on pages 36 and 37 of the *ZipPlus Owner's Manual* for complete information on Iomega support options, including One-on-One Technical Support.

PictureWorks NetCard

About NetCard

PictureWorks NetCard is the revolutionary software application that turns boring e-mail into exciting new iMail (image mail). Suddenly, your on-line communications take on a rich new dimension as NetCards bring your messages to life with the persuasive power and emotional appeal of pictures. And best of all, it works with your existing e-mail system. It simply couldn't be easier to catch the iMail wave!

- Send pictures and movies* via standard e-mail
- Sends self-playing NetCards, no special software required to view
- NetCards attach to any e-mail message
- Supports all e-mail packages that allow attachments
- NetCards are small and easy to send, typically less than 350KB

* The English version of NetCard can send pictures, movies, and sound. The international versions of NetCard can send only pictures.

System Requirements

Windows

- 486 processor or higher (Pentium recommended)
- Windows 95 or Windows NT 4.0
- 8MB RAM
- 4MB available hard disk space
- Color monitor with support for 256 or more colors (thousands of colors recommended)

Macintosh

- 68040 processor or faster (Power PC recommended)
- Apple System Software version 7.1.1 or higher
- 8MB RAM
- 4MB available hard disk space
- Color monitor with support for 256 or more colors (thousands of colors recommended)

E-mail Support

All e-mail packages that support attachments and are MAPI-compliant, such as Microsoft® Exchange and Eudora.

Graphics and Movies

Windows: BMP, JPG, and AVI

Macintosh: PICT, JPEG, and QuickTime movies

Installation Instructions for Windows 95 or Windows NT

1. Insert the Zip*Plus* software CD into your computer's CD-ROM drive.
2. Select the language you want to use. (NetCard is currently available in English, German, French, Spanish, and Italian.)

   ■ ***If the ZipPlus software setup window does not open automatically,*** *follow these steps: (1) open My Computer; (2) double click the ZipPlus CD icon; (3) double click* ***Install.exe*** *in the root directory of the ZipPlus CD; (4) choose the language you want to use.* ■
3. Click the button for **Install Software now**.
4. If you have already installed Iomega Tools software, select **Zip*Plus* software only**.
5. Select **PictureWorks NetCard**. (You may install other Zip*Plus* multimedia software programs at the same time if desired.)
6. Follow the screen instructions to install the software.

Installation Instructions for Mac OS

1. Insert the Zip*Plus* CD into the CD-ROM drive on your Mac.
2. Double click the Zip*Plus* CD icon on your Desktop.
3. Open the **NetCard** folder.
4. Double click the **NetCard Installer** icon.
5. Follow the screen instructions to install the software.

Digital Arts & Sciences ImageAXS

About ImageAXS

Simplicity, power, and elegance make ImageAXS the best solution for managing your images. It is the perfect tool for cataloging, retrieving, and displaying digital content, including still images, moving pictures, and audio files. 'Smart' keywords, seven user-definable alpha-numeric fields, a long text field, and a dozen file information fields give you the flexibility to organize your visual media any way you want. Create as many ImageAXS collections as you like. Each can contain up to 100 records from diverse file formats and creator applications. The original files can be stored anywhere – on your local drive, removable media, CD-ROM's, or remote volumes like servers or networked drives.

- Drag & drop files over the ImageAXS application or icon to acquire images
- Create user-definable thumbnails automatically
- Display the source file immediately, by keyboard command or mouse click, regardless of size, format, or location
- View digital file information and the file location from any screen at the click of a button
- Launch image-editing applications from within ImageAXS with the click of a mouse

System Requirements

Windows

- 486 processor or higher
- Windows 95 or Windows NT
- 16MB RAM
- 20MB available hard disk space
- Color monitor with support for 256 or more colors

Supported file formats (Windows)

36 formats, including BMP, DCX, EPS, GIF, GROUP III/IV, ICO, JPEG, MAC, MSP, PCX, PhotoCD, PICT, Adobe PSD, TIFF, WAV, WMF, WPG, QuickTime MOV, AVI, and SND.

Macintosh

- 68030 processor or higher, including PowerPC Macintosh
- Apple System Software version 7.0 or greater
- 5MB free RAM (more recommended for large images)
- 4MB available hard disk space
- Color monitor with 256 or more colors

Supported file formats (Macintosh)

PICT, TIFF, GIF, JPEG, EPSF (and other files that contain PICT thumbnails or previews, such as Adobe PageMaker, QuarkXPress, Microsoft PowerPoint, and SuperPaint), BMP, RAW RGB (some), PhotoCD, Photoshop 2.5, 3.0, & 4.0, PhotoDeluxe 1.0, ScitexCT (RGB & CMYK), QuickTime Movies, and the following DOS/Windows formats (with appropriate file extension in the filename): .BMP, .BPS, .GIF, .JIF, .JPG, .PCD, .PCT, .PCX (some), .PIC, .PSD, .RGB (some), .SCT, .TIF.

Installation Instructions for Windows 95 or Windows NT

1. Insert the Zip*Plus* software CD into your computer's CD-ROM drive.

2. Select the language you want to use. (ImageAXS is currently available in English, German, French, Spanish, and Italian.)

   ■ ***If the ZipPlus software setup window does not open automatically,*** *follow these steps: (1) open My Computer; (2) double click the ZipPlus CD icon; (3) double click* ***Install.exe*** *in the root directory of the ZipPlus CD; (4) choose the language you want to use.* ■

3. Click the button for **Install Software now**.

4. If you have already installed Iomega Tools software, select **Zip*Plus* software only**.

5. Select **DAS ImageAXS**. (You may install other Zip*Plus* multimedia software programs at the same time if desired.)

6. Follow the screen instructions to install the software.

Installation Instructions for Mac OS

1. Insert the Zip*Plus* CD into the CD-ROM drive on your Mac.
2. Double click the Zip*Plus* CD icon on your Desktop.
3. Open the **ImageAXS** folder.
4. Double click the **ImageAXS Installer** icon.
5. Follow the screen instructions to install the software.
